

## Tax Break Article April 2009

April 2009

### **Important Requirement to Summon the Shareholders AGM**

Please note that, you are required to hold the Annual General Shareholders' Meeting for your company within 4 months of year end. Please be reminded that now the notice for summoning the shareholders' meeting must be sent by registered mail and published in a local newspaper.

In light of the above requirement, we emphasize that clients should plan ahead and spare time to send the mail to every shareholder and to contact newspapers for the advertisement.

In cases where you are not sure as to how to handle this or are too busy to deal with the detailed procedures of the above requirement, please contact us and we would be pleased to advise and give assistance.
