Our hands-on approach

“ Whatever your plans, we’ll embrace the challenge together ”

Although MAZARS is an integrated global partnership and the only one of its kind in the accounting profession, it nevertheless operates in most countries on a scale that makes it conducive to a “hands-on” approach.

Within each country, MAZARS has seasoned professional advisors as the main point of contact.

The combination of a local “hands-on” approach with a globally integrated network has proven to get excellent results for clients.

MAZARS Thailand’s client portfolio includes many prestigious companies. Ninety per cent of the clients are operating in more than one country.

MAZARS in Thailand

“ A wealth of experience
at the service of its clients ”

MAZARS in Thailand combines the benefits of a worldwide integrated partnership with the entrepreneurial drive of the Double Impact Group, which was founded by Bruce Darrington in Bangkok in 1999.

Double Impact started as a strategic advisory practice, later expanding to provide accounting, taxation and audit services. It has enjoyed spectacular growth, achieving a top 10 position in its market by the beginning of 2008, as well as a No.1 position in the accounting outsourcing area.

The decision of the Double Impact Group to integrate into MAZARS was a fairly easy one, given the commitments both shared to the same types of clients and services and the shared business philosophy.

In Thailand today, MAZARS comprises over 70 professionals. One of the advantages in Thailand is gained from the multinational composition of its advisors. The practice has British, French, Dutch, Canadian and Australian nationals among its senior advisors, which ensures that the company is well placed to act as a bridge between businesses operating in Thailand and related companies overseas.
